

**Regardless where  
of you're heading**

**B·O·B**

**Your next outdoor  
adventure awaits.**

**Around the world on three wheels.**  
The BOB's always "got your back".

Exploring the world, sleeping under the stars, experiencing the beauty of nature at dawn: This is what awaits you on your cycling adventure holiday. And if you want to stay flexible and keep your supplies safe and secure, the BOB touring trailer is the perfect companion. The single-wheel trailer follows right behind you wherever you go, even on narrow paths and over difficult terrain.

Making memories that'll last a lifetime!

**BOB – the epitome of reliability.**  
For almost 30 years.

The BOB YAK was the very first single-wheel bicycle trailer of its kind. And its name says it all: For nearly three decades, the “Beast of Burden” has served as an extremely practical and reliable packhorse for outdoor enthusiasts all over the world. The fact that its design has barely changed at all since the first version is a testimony to its quality.

**BOB is the perfect touring companion.**  
For you, too.

- Instead of loading down your bike and compromising its handling, your cargo will roll smoothly behind you in the BOB trailer.
- Heavy-duty construction and smooth off-road performance.
- A low centre of gravity combined with great stability and ample ground clearance.

## YAK

The original enjoys cult status among long-distance cyclists. The BOB YAK was the world's first single-wheel trailer and is still a must-have piece of professional equipment for any cycling tour involving difficult terrain.

## IBEX

What makes the BOB IBEX so impressive is its sensational off-road performance. The adjustable suspension protects your luggage from bumps and jolts – and you will appreciate the superior handling characteristics.

## BOB Bag

With 94 litres of capacity, it's the perfect accessory for your BOB trailer. Protects your belongings from the elements. Completely waterproof! Easy to pack and unpack, thanks to the roll closure with Fastex buckle.

## Hitches

The BOB fits to almost any 26", 28" or 29" city bike, mountain bike, road bike or tandem. If the standard quick-release skewer that comes with the trailer (for hub widths of up to 140 mm) doesn't fit to your bike, then don't despair! We offer two wider quick-release skewers and various solutions for bicycles with solid or thru axles. Then there's nothing to keep you from embarking on your next adventure tour with your favourite bike!
